waterwell® *TEN-X*

Upgrade to the most advanced 10-layer tank because your water deserves the best protection!

We are proud to present the **Ten-X Tank**, a pioneering water storage solution engineered with **10 layers of advanced protection**. Designed to withstand the harshest conditions, this tank offers an unmatched combination of durability, insulation, and safety for your water.

With state-of-the-art features such as **anti-bacterial protection, UV-protective layers, sun-shield protective layers, enhanced weather-resistant layers, high-strength layers**, and a **titanium-loaded layer** the **Ten-X Tank** keeps water cool, pure, and protected year-round. Every layer is crafted for strength, security and resilience, making it the ultimate choice for households across India.

What makes the Ten-X tank different?

- Layered Protection:** Every layer is crafted with specific technology, adding strength, resistance, and protection. Each one enhances durability, making the tank last longer and perform better.
- Optimal Temperature Control:** With advanced weather resistant layers, the Ten-X Tank maintains a stable internal temperature, even in extreme weather, keeping your water refreshingly cool.
- Anti-Bacterial Properties:** The inner layers are treated with an anti-bacterial coating, preventing bacterial growth and ensuring that water remains safe and hygienic for everyday use.
- UV Resistance:** Equipped with UV-resistant technology, the tank protects against harmful sun exposure, ensuring it won't fade, crack or weaken over time.
- Enhanced Durability:** Resists impact, temperature fluctuations, and corrosion.
- Food-Grade Material:** 100% safe and certified for water storage.
