Presenting all new range of
Vectus SMART

✓ Strong

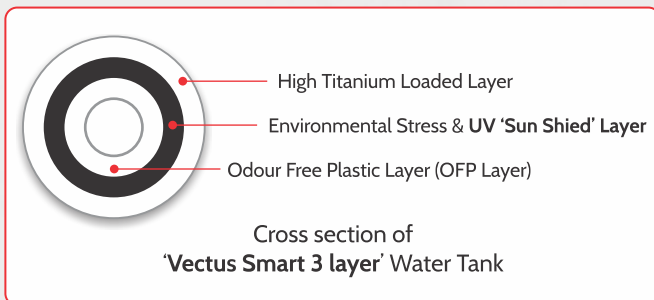

✓ Reliable

✓ Economic

“Vectus Group has manufacturing facilities at 14 locations with a processing capacity of 50,000 MT of polymer per year. Our most comprehensive product range caters to every need of the customers. Adding another innovative product range is Vectus Smart. These range of tanks keep water free from odour and comes with 5 years guarantee.

The Vectus Smart is a new range of Roto moulding water storage tanks. Made up of 3 layers namely, White Titanium layer (Outer layer), Environmental stress & UV “Sunshield” Layer. (Middle Layer), Odour free plastic layer (Inner Layer), The odour free plastic layer keeps the water free from any unpleasant odour that could form due to growth of bacteria or stagnancy of water.”

For continuous product development, the specifications are subject to change without prior notice.
