CPVC PIPING SYSTEM

For Hot & Cold Water Applications

CPVC Piping System

Vectus CPVC pipes and fittings are manufactured using premium quality raw materials & advanced technology and are ideal for both hot and cold water distribution systems. These pipes are made from thermo plastics, chemically known as Chlorinated Polyvinyl Chloride, commonly known as CPVC. Vectus CPVC pipes have high tensile strength & good pressure bearing capacity. It can withstands upto 82°C compared to any other thermoplastic plumbing systems available in the market. CPVC pipes are manufactured as per IS 15778 & ASTM F 441 and fittings are manufactured as per ASTM D 2846 & ASTM F 439 in CTS (Copper Tube Sizing).

- Pipes are available in SDR 11, SDR 13.5, SCH 40 and SCH 80 & fittings are available in SDR 11.
- The available range of pipes and fittings varies from 15 mm to 100 mm.

Features

Corrosion Resistant

High Strength

UV Resistant

Self Extinguishing

Maintenance Free

No Bacterial Growth & Safe for Drinking Water

Can withstand up to 82°C

Applications

Hot & Cold Plumbing

Transference of Drinking Water

Residential Purpose

Industrial Use

PIPES as per IS 15778

SDR 11: Available in lengths of 3 & 5 meters
Size (mm): 15, 20, 25, 32, 40, 50

SDR 13.5: Available in lengths of 3 & 5 meters
Size (mm): 15, 20, 25, 32, 40, 50

PIPES as per ASTM F 441

SCH 40: Available in lengths of 3 & 5 meters
Size (mm): 65, 80, 100**

SCH 80: Available in lengths of 3 meter
Size (mm): 65, 80, 100
