VECTUS INDUSTRIES LIMITED adding a new milestone to its ever-encouraging product line, presents Vectus Garden Pipes. Garden Pipe is a flexible tube commonly used to flush water for gardening, lawn care and other landscaping purposes. They are also used for cleaning of vehicles, pets, equipments and also at construction sites, industries etc.

Now a days roof top gardens, organic farming, customized farming are trending, which makes Garden Pipes even more useful.

To serve all varied needs of consumers, fully feature loaded Vectus Garden Pipes are ready !

VECTUS GARDEN PIPES

Made in India. Made for Green India. Vectus garden pipes are all weather pipes that can withstand any degree of rise and drop in temperature without melting or getting stiff. Made from superior raw materials, these pipes don't damage or twist or tangle or crack if kept unused or even when used daily. The high quality pigments used in these pipes prevent the colours from fading. Moreover, Vectus Garden Pipes are non-carcinogenic pipes, i.e. these pipes are not made using any chemicals that result in cancer in humans. Made as per European Union Guidelines on non-hazardous substances & RoHS Compliant; Vectus Garden Pipes are free from any kind of heavy metals. Vectus Garden Pipes are translucent that discourage the growth of any algae or fungus, hence making them safe to use. These are heavy weight pipes made of good quality material. Overall Vectus Garden Pipes are value for money pipes
