Waterwell Ten-X

BLOW MOULD

The Ten-X Tank is a pioneering water storage solution engineered with 10 layers of advanced protection and now made 15% heavier for enhanced strength and durability. Designed to withstand the harshest conditions, it offers an unmatched combination of durability, insulation and safety for your water. Featuring state-of-the-art protection such as anti-bacterial protection, UV-protective layers, sun-shield protective layers, enhanced weather-resistant layers, high-strength layers and a titanium-loaded layer, the Ten-X Tank keeps water cool, pure and protected year-round. With its 15% heavier construction, every layer is engineered to deliver greater strength, security and resilience—making the Ten-X Tank the ultimate choice for households across India.

10 LAYERS

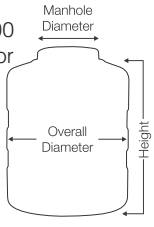

Salient Features:

- **Layered Protection:** Every layer is crafted with specific technology, adding strength, resistance and protection. Each one enhances durability, making the tank last longer and perform better.
- **Optimal Temperature Control:** With advanced weather resistant layers, the Ten-X Tank maintains a stable internal temperature, even in extreme weather, keeping your water refreshingly cool.
- **Advanced Anti-Bacterial Layer:** Guarantees water purity and safety with an inner anti-becterial layer, effectively preventing bacterial contamination.
- **UV-Resistance:** Equipped with UV-resistant technology, the tank protects against harmful sun exposure, ensuring it won't fade, crack or weaken over time.
- **Enhanced Durability:** Resists impact, temperature fluctuations and corrosion.
- **Food-Grade Material:** 100% safe and certified for water storage.
- **Wide Range of Sizes:** Available in sizes ranging from 500 to 2000 litres, catering to various capacity needs and providing options for different applications.
